PROFESSIONAL SUMMARY

Results-driven Data Analyst with 3.5+ years of experience delivering end-to-end analytics solutions across legal, manufacturing, and IT sectors. Proven track record in building interactive Power BI dashboards, optimizing complex SQL queries, and automating MIS reporting workflows that save 10+ hours per week. Skilled at translating business requirements into KPI-driven insights that support executive decision-making. Experienced collaborating with cross-functional stakeholders to improve data quality.

TECHNICAL SKILLS

BI & Visualization: Power BI (DAX, Power Query, Report Builder), Excel Dashboards, KPI Scorecards

Database & Query: SQL, Query Optimization, Stored Procedures, Joins, Subqueries

Excel: Pivot Tables, XLOOKUP, VLOOKUP, INDEX-MATCH, Power Pivot, Macros, Conditional Formatting

Data Engineering: ETL Pipeline Design, Data Modeling, Data Cleaning, Data Transformation, Data Validation

Reporting: MIS Reporting, Automated Reporting, Dashboard Development, Root Cause Analysis

Soft Skills: Stakeholder Management, Business Requirement Gathering, Cross-functional Collaboration, Documentation

PROFESSIONAL EXPERIENCE

Data Analyst | **Jupitice Justice Technologies** | Oct 2025 – Present

- Manage, analyze, and track 5,000+ litigation records across multiple jurisdictions using a proprietary LMS, reducing data discrepancy rate by 35%.
- Designed and deployed 6 interactive Power BI dashboards — including cause list, advocate performance, and PIU-level views — used daily by 20+ legal and operations stakeholders.
- Authored 50+ optimized DAX measures and calculated columns, cutting dashboard load time by 40% compared to legacy Excel-based reports.
- Automated weekly cause-list extraction and data validation workflows using Power Query, saving 8+ hours of manual effort per week.
- Built robust data models linking litigation, advocate, and court data across 3 sources, enabling drill-through and cross-filter analysis.
- Collaborated with legal, technical, and business teams to gather requirements, validate KPIs, and deliver reporting solutions aligned with operational SLAs.
- Implemented data quality checks and validation rules that improved data accuracy from ~78% to 96% within 3 months.

Junior Data Analyst | **Cognizant** | Dec 2021 – Jun 2024

- Built and maintained Power BI dashboards across business units, enabling real-time monitoring of operational KPI
- Developed automated Excel-based MIS reporting system using Power Query and macros, replacing a 6-hour manual weekly process and saving 300+ hours annually.

- Performed root cause analysis on data quality issues, identifying and resolving 200+ data integrity errors across source systems within the first year.
- Created KPI reports and performance scorecards for senior management; presentations directly informed resource allocation decisions for 3 project teams.
- Collaborated with business analysts and project managers to translate requirements into data models and validated outputs against business logic before deployment.
- Mentored 2 junior team members on SQL best practices and Excel automation, reducing onboarding time from 6 to 3 weeks.

MIS Executive | **Siyaram Silk Mills** | Jan 2021 – Dec 2021

- Prepared and distributed 15+ daily/weekly/monthly MIS reports for production, sales, and inventory departments, supporting 30+ business users.
- Managed and maintained datasets of 50,000+ records in Excel, implementing structured data entry templates that reduced input errors by 40%.
- Automated repetitive reporting tasks using Excel macros and formulas, cutting report generation time from 3 hours to 30 minutes per cycle.

KEY PROJECTS

NHAI Litigation Dashboard

- Built a multi-page interactive Power BI dashboard tracking 5,000+ cases across district courts, high courts, and RO/PIU jurisdictions nationwide.
- Developed 30+ DAX measures for KPI cards (pending, disposed, filed, hearing dates), drill-through reports, and automated data validation alerts.
- Integrated cause-list data from multiple Excel sources via Power Query, reducing manual data preparation from 4 hours to under 20 minutes per refresh.
- Delivered actionable insights adopted by senior NHAI officials to prioritize case resolution efforts across 15+ districts.

Advocate Performance Dashboard

- Designed end-to-end Power BI solution covering advocate workload distribution, case pendency tracking, compliance rates, and win/loss status analysis.
- Created dynamic slicers and cross-report filters enabling stakeholders to view performance by advocate, court type, and date range in seconds.
- Reduced time to generate individual advocate reports from 2 days (manual) to real-time self-service, improving stakeholder satisfaction.

EDUCATION

M.Sc. Information Technology — CGPA: 8.56 / 10 | Graduated: 2020 | Mumbai university

B.Sc. Information Technology — CGPA: 6.85 / 10 | Graduated: 2018 | Mumbai university

KEY ACHIEVEMENTS

- Saved 300+ manual reporting hours annually at Cognizant through Excel and Power Query automation.
- Improved litigation data accuracy from 78% to 96% within 3 months at Jupitice.
- Reduced Power BI dashboard load time by 40% through DAX optimization and data model restructuring.
